## PROFILE

Software engineer with 6+ years across mobile, web and backend: APIs and tooling in Django, SDKs used in bank pilots, and full products built solo. Open to remote work, full-time or contract, with flexible working hours.

## SKILLS

ranked for this role

| | |
|---|---|
| Most relevant | **Flutter · Dart · Swift · SwiftUI · Kotlin · React Native · Expo · REST APIs · TypeScript · JavaScript · Git · Docker** |
| Also | Node.js · Python · Django · SQL · PostgreSQL · Express · FastAPI · NestJS · Tailwind CSS · SQLite · Drizzle · Anthropic SDK · MCP · tRPC · Redis · Prisma · React · Next.js · and many more… |

## EXPERIENCE

**Software Engineer · Watchu Believe?** · own product — Apr 2025 – now

- Building Watchu Believe? full-time and solo, including a scheduling platform that pairs seekers with volunteers. Journey documented on Coding for the Kingdom .

**Software Engineer · Lune Technologies** · fintech, Dubai (hybrid) — Feb 2021 – Apr 2025

- Built the Lune PFM app in Flutter: web sockets, localisation, Mixpanel, Sentry, and CI/CD with GitHub Actions. Also Flutter Web and Vue dashboards.
- Built Lune's native iOS and Android SDKs, highly customisable and supporting legacy OS versions, used in app pilots with major UAE banks.
- Built a Django-based API playground (similar to Postman), plus automation tools and Slack bots.

**Flutter Developer · Tech Bay Portal** · Dubai (remote) — Aug 2020 – Feb 2021

- Led a four-person remote team that launched three mobile apps; handled task assignment, code reviews and fixes from user feedback.

**Student Tutor · Aptech Computer Education** · Abeokuta — Aug 2018 – Aug 2019

- Taught web development and programming.

## PROJECTS

**GHS Hymnal**
church tool
All 241 hymns of the Grace Hymns Supplement, searchable by title, lyrics or number.

**VidPro**
church tool
Sermon-to-video tool that turns a church's audio sermons into videos and shorts, saving hours in the weekly sermon workflow.

**Kínwí**
own product
Speech-to-text tool for Yoruba and English: FastAPI, PyTorch and Hugging Face Transformers, with a Nuxt web app for uploading audio and exporting captions.

**Watchu Believe?**
own product
Helps people test what they believe about God, man, Jesus and salvation. Includes a scheduling platform pairing seekers with volunteers. Built solo.

**Mailmon**
own product
Personal finance manager that parses transaction data from an email inbox, categorises expenses and shows where money goes.

## VOLUNTEER AND OPEN SOURCE

- Built Flutter apps with Upstream, and Ionic/Angular mobile apps with Missional Digerati.
- Added web support to the Flutter Zeplin extension.

## EDUCATION

**BSc Information Technology**, Middlesex University Dubai · First Class Honours — 2020

**Advanced Diploma in Software Engineering**, Aptech · Distinction — 2017 – 2019

**IELTS** · Band 8 — 2019

## WORKING SETUP

Remote, on West Africa Time (UTC+1). Full-time or contract. Flexible working hours.
